Multi-factor authentication— enrollment

Once you have enrolled in this process using one of the options below, you can choose to add more than one option by accessing "Multi-factor authentication" within "Security settings" on the CRA Account Welcome page. We recommend that you set up at least two ways to use multi-factor authentication, in case you experience difficulties with the option you initially selected.

- Authenticator app  — Select this option if you want to use an authenticator app (downloaded separately) to generate your one-time passcode.
- Telephone — Select this option if you want to receive your one-time passcode via Short Messaging Service (SMS) or have it verbally provided to you in an automated message.
- Passcode grid  — Select this option if you want to save or print a unique passcode grid that only you can use. We will ask you to provide information from the passcode grid every time you sign in.

Exit

Multi-factor authentication—telephone(s)

At this time, you can only use telephone numbers based within North American countries that participate in the North American Numbering Plan (i.e., countries an individual can call from Canada by dialing 1+10 digits). The telephone numbers must be supplied by telephone providers (i.e., landline or mobile phone).

When you sign in, the CRA will send you a one-time passcode to the telephone number that you provide. Standard message or data rates may be charged by your telephone service provider.

I cannot provide a telephone number. ?

You can add up to a maximum of three different telephone numbers. ?

We recommend that you add more than one telephone number in case you ever have difficulties with your primary contact number.

+ Add a telephone number

* Select the language in which you would like to receive your one-time passcode. *(required)*

- ☒ English
- ☐ French

Multi-factor authentication—telephone number and delivery method

*** Select the telephone number where you would like your one-time passcode sent. *(required)***

☒ *** - *** - 6536 Cell 1

If you select "Text me", the passcode will be sent by Short Messaging Service (SMS) only once each time you select this delivery message. You will need to open the text message to read the passcode. If you select "Call me", the passcode will be verbally provided to you in an automated message. Once the passcode is sent it will expire in five minutes. Have your telephone handy.

If you would like to enroll with a different option, or make changes to your telephone number(s) you can return to [Multi-factor authentication - enrollment](#).
